**FALL 2019**

CFP & EVENT INFORMATION

EVENT DATES:

SEPTEMBER 17, 2019 - BROOKLYN
OCTOBER 9, 2019 - LONDON
JANUARY 2020 - BAY AREA

WHAT IS GITLAB **COMMIT?**

A THREE CITY SERIES OF ONE-DAY USER CONFERENCES FOCUSED ON CLOUD NATIVE AND THE DEVOPS TOOLCHAIN

GitLab Commit brings together the GitLab community to connect, learn, and inspire. You'll learn about exciting new technologies and hear how creators like you are innovating the future of software development.

By joining the largest in-person gathering of GitLab community members, you'll meet with other users and partners, discover new and upcoming features, and learn how to navigate the greatest challenges in a digital transformation.

SEPTEMBER 17, 2019 - BROOKLYN

KICKING OFF AT THE WILLIAMSBURG HOTEL, EXPERIENCE A GITLAB WILLIAMSBURG NEIGHBORHOOD TAKEOVER, WITH EACH VENUE IN THE TWO BLOCK RADIUS SHOWCASING ITS OWN UNIQUE THEME.

OCTOBER 9, 2019 - LONDON

IMMERSING ATTENDEES IN THE NEWLY RENOVATED HISTORIC SPACE "THE BREWERY," ATTENDEES WILL EXPERIENCE A BLEND OF TRADITION AND TRANSFORMATION IN THE CITY.

SPEAKER LINEUP AND CALL FOR PROPOSALS

SUBMIT A CFP TO SPEAK AT GITLAB COMMIT

Our schedule will be announced in early August.

We invite you to speak at GitLab Commit and share your software journey. We're looking for stories that showcase the power of DevOps in action. Share the technologies and strategies you've employed, your challenges and success, or a behind-the-scenes look at how you're building something incredible.

CONTENT TRACKS OF INTEREST

DevOps in Action
Take away practical advice and examples of how others have navigated their DevOps transformations. These sessions focus on actions and results rather than high level ideas.

Cloud native
Learn how to leverage cloud native technologies like Kubernetes, severless, and multicloud to build and run applications better and faster.

Live coding
These adrenaline-pumped interactive sessions will feature do-ers on stage, live coding, debugging, and hacking.

Powered by GitLab
Software has eaten the world and we are all better for it. Hear how developers like you are building on GitLab to solve large, world problems from humanitarian crises to space exploration.

SPEAKER DETAILS

Each location will have approx. 500 engaged attendees for this inaugural event.

We are here to help you with speaker preparation & convent development.

Speaker travel reimbursements for travel and accommodation will be needs-based and depend on available funding. If you want to give a talk but cannot get reimbursed by your company, please submit a proposal anyway and let us know at the bottom of the form

Our attendees are: Engineering managers, software engineers, cloud engineers, senior developers, application developers, industry thought leaders, engineers and developers at all levels with a focus on application development, security, and cloud.

SAMPLE SCHEDULE

THE OVERALL EVENT STRUCTURE WILL BE MIRRORED AT ALL THREE EVENTS.

TASK	TIMING
